Suzy Power

This seminar will concentrate on:

- How does divorce impact on children?
- What is most important to children and does this vary according to age and gender?
- What do your clients tell their children and what could they say to them instead?
- What do you do when you disagree with the client's instructions?
- What does the research tell us?
- How can you help your client to understand and do their best for their children?

The seminar will offer an insight into what children are feeling and thinking when their parents separate. It will provide strategies to enable you to assist your client to focus on their children's' needs in making decisions that affect them.

The seminar will be presented by Suzy Power. It will be based on Suzy's own considerable experience and the research on this issue. Suzy lectured in child development for several years and is both a frequent trainer for Resolution and a practising mediator.

Please note the workshop can count towards the annual collaborative/ADR CPD requirement.
