

# DR training for your region

A selection of our most popular DR courses are now available locally.

Courses available:

- **Prickly pairs** - advanced DR for mediators
- **Setting up a mediation practice** - the practical aspects of running a successful mediation practice
- **So you think it's all over...** - a negotiation course for collaborative practitioners and mediators
- **Can I take my teddy?** - a child-centred approach to family law practice and mediation

Our on-demand training has been growing in popularity amongst DR practitioners, and provides an easier way for PODs and groups to access the best of our training without the added costs of travelling and accommodation.

We've successfully run these courses in various locations around the country receiving fantastic feedback from participants. We know there's many more members who would benefit from this training and could attend if it was run more locally to where you're based. If you'd be interested in bringing this course to a town or city near you we'd love to hear from you.

This option is particularly useful for groups who like to plan their training in advance, and helps its members keep up to date with the latest DR skills and initiatives and ensure their mediation or collaborative CPD is met.

These courses generally need a minimum of 12 participants for the role plays and exercises to be of maximum benefit and cover the trainers' fees and venue costs.

The standard price to attend is printed overleaf, but we would be willing to discuss the price to reflect a lower-cost venue/firm if applicable.

Please do get in touch if you'd like to run training in your region or discuss your options in more detail.
